

## GREEN BEER

READY IN: **1 MINUTE / 5 MINUTES-METHOD 2**  
DIFFICULTY: **VERY EASY**

### Ingredients:

**350ml** of your favourite beer  
**1 drop** of green food colouring

### Tips:

Any beer will work when making green beer, however, some produce a brighter green colour than others. To get the greenest of beers, begin with a light-coloured brew.

### Natural colouring alternatives:

- Spirulina
- Matcha

### Method:

1. Add one drop of green food colouring to a clear beer glass.
2. Pour the beer into the glass. That's it!
3. Serve and enjoy.

### Method for natural alternatives:

1. Add 1 teaspoon of matcha or  $\frac{1}{2}$  teaspoon spirulina powder into a bowl and add beer little by little.
2. Whisk the mixture until the powder is completely dissolved.
3. Transfer the drink to a beer glass and enjoy!
